About Us

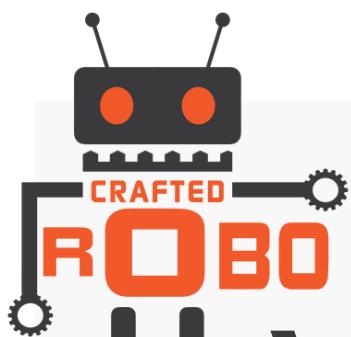

A Brief Intro About The Company

Headquartered in Hubli, we are dedicated to providing exceptional talent solutions, including tailored staffing services, expert Interviewing Services, and comprehensive Business Analysis services. Alongside this, we specialize in creating AI-driven tools that redefine business processes and enhance operational efficiency.

Our upcoming AI-powered Job Portal, currently under development, is engineered to transform the hiring landscape through advanced automation and intelligent workflows. It offers job seekers a suite of AI-driven features such as Virtual Interview Preparation, an AI Resume Builder, and an AI Upskilling Counsellor. For employers, the platform delivers a fully automated, AI-driven end-to-end recruitment BOT designed to streamline and enhance the hiring process.

With a team of visionary leaders, industry specialists, and technology experts, we are committed to delivering cutting-edge solutions that drive business success and elevate talent acquisition strategies.

VISION

To be a global leader in delivering innovative technology solutions and talent services, empowering businesses to thrive in a rapidly evolving digital world

MISSION

01

To craft cutting-edge AI-driven software products that transform business processes and drive operational excellence.

02

To provide world-class staffing, interviewing, and business analysis services that connect businesses with the right talent and solutions.

03

To foster long-term partnerships with clients by delivering exceptional value, quality, and customer satisfaction.

TALENT SOLUTIONS

Our Talent Solutions are designed to simplify and enhance your recruitment process, providing you with skilled professionals who are the perfect fit for your organizational needs. From identifying top-tier candidates to handling the entire hiring process, we offer end-to-end recruiting services that ensure you get the right talent, every time.

We take care of the entire recruitment lifecycle, from sourcing to onboarding, so you can focus on what matters—growing your business. Our talent acquisition specialists work closely with you to understand your unique requirements, company culture, and business goals, ensuring that every candidate we present is aligned with your vision.

HIRING MODELS

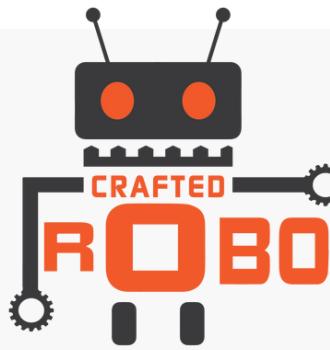

At Craftedrobo Technologies, we provide flexible hiring solutions tailored to meet the dynamic needs of businesses. Whether you require short-term expertise, a trial period before full-time commitment, or permanent talent acquisition, we have you covered.

01 **CONTRACT STAFFING**

02 **CONTRACT-TO-HIRE**

03 **FULL-TIME EMPLOYMENT**

At Craftedrobo Technologies, we are committed to delivering top-tier talent across all hiring models to help businesses achieve their goals efficiently.

01

CONTRACT STAFFING

Our Contract Staffing model allows businesses to hire skilled professionals for a fixed duration based on project requirements. This approach is ideal for companies looking to scale their workforce quickly while maintaining cost-effectiveness.

Benefits Include -

- *Faster onboarding and deployment*
- *Reduced administrative and compliance burden*
- *Access to a specialized talent pool for short-term needs*

CONTRACT -TO-HIRE

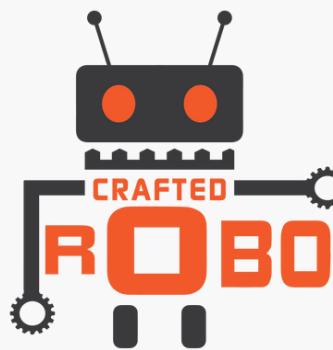

02

The Contract-to-Hire (C2H) model offers a probationary period where organizations can assess a candidate's performance, skills, and cultural fit before extending a full-time offer.

Benefits Include -

- *Lower hiring risks*
- *A trial period for both employer and employee*
- *Seamless transition to full-time employment if expectations are met*

03

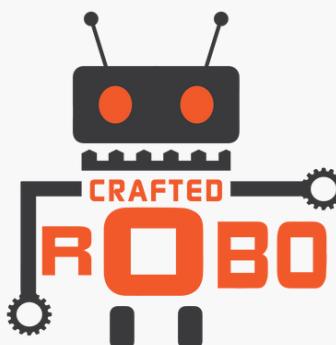

FULL-TIME EMPLOYMENT

Our Full-Time Employment (FTE) hiring solutions focus on placing highly qualified professionals in permanent roles within organizations. We ensure that candidates align with your company's long-term objectives and culture

Benefits Include -

- *High-quality talent sourcing through a rigorous selection process*
- *Improved employee retention and organizational stability*
- *Strategic workforce planning to support business growth*

CASE STUDY

-  **A Brief case study based on previous experience of our Director**

Client: Shell Markets India

Industry: Oil & Gas

CHALLENGE

Niche hiring for AI researchers, Data scientists, from tier-1 university graduates across global regions including the USA, Netherlands, India, and the UK.

SOLUTION

Created a customized sourcing strategy for high-demand, niche roles by personally interacting and monitoring the team of sourcing specialists and schedulers, ensuring alignment with 20+ stakeholders to provide desired results.

RESULT

Successfully closed a critical position within 30 days after screening 100+ CVs and interviewing over 35 candidates.

Received appreciation from a Project Director from Malaysia, who personally visited Shell India to commend the achievement.
